ABOUT US

WISDOM Education Europe GmbH was founded in 2019 and is part of the renowned WISDOM group of companies. This group is one of the leading manufacturers of furniture, children's vehicles and play equipment for indoor and outdoor use. Since 1993, our products have been used in daycare centres in over 25 countries worldwide.

Our main focus is on continuously improving the quality, design and safety of our product range. We are proud of our modern, professional and high quality production processes, as confirmed by ISO9001, ISO14001, EN71, EN1176 and other international standards certifications.

All processes of design, development, manufacturing and services are controlled in-house and integrated in an extensive system.

Our company is based on an experienced and highly qualified team of employees and managers with over 500 members. Our production facility covers 80,000 square metres and is equipped with state-of-the-art facilities. We also operate a global warehouse and logistics centre.

Customers from Germany and other European countries as well as the United States and Australia rely on the durability and high quality of our WISDOM products.

WISDOM Education Europe was founded with the aim of providing customers in the European market with easier access to our high-quality product range for daycare centres. Our dedicated team delivers quickly to European customers directly from our German warehouse.

Our clear mission is to provide daycare centres with high-quality and safe products. In doing so, we create a healthy, inspiring and enjoyable environment for children to play, learn and thrive.

SPATIAL PLANNING AND DESIGN FOR DAYCARE / CHILD CARE CENTRES

We are your reliable partner when it comes to creating an inspiring, safe and functional environment for children. Our team has many years of experience in designing daycare/child care centre spaces and specialises in creating spaces that focus on the needs of children.

Daycare/child care centre common room
Age group: 2 to 4 years

Customised Interior Design

Every daycare/child care centre is unique and we customise our design to meet the specific needs and goals of the facility. Whether you want a cosy reading corner, a creative art area or an exercise-friendly play space, we can turn your vision into reality.

Safety First and Foremost

The safety of the children is our top priority. We take all relevant safety regulations into account and ensure that the rooms we design are child-friendly and hazard-free.

Daycare/child care common room
Age group: 3 to 4 years

Pedagogical Concepts Integrated

We work closely with educators to ensure that the room design supports the educational goals of daycare/child care centres. Our rooms promote the cognitive, social, emotional and physical development of the children.

Budget-friendly Solutions

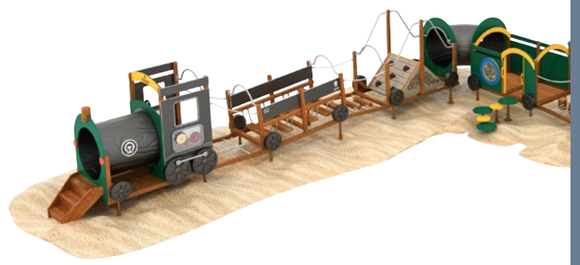

We understand that nurseries often have limited financial resources. Our team works closely with you to develop cost-effective solutions that still offer the highest quality.

Creativity and Play

We create spaces in which children can develop their creativity. Our design ideas encourage play and imagination, which is crucial for children's development.

Functionality

The rooms are designed in such a way that they optimally fulfil the daily routines in the daycare/child care centre. We take into account the needs of the teachers as well as those of the children.

OPEN SPACE DESIGN

In addition to indoor spaces, we also plan and design outdoor areas so that children can experience and explore nature. Playgrounds, gardens and outdoor learning areas are important elements of our open space design.

Our aim is to create daycare/child care centres where children enjoy spending time and where they can develop in the best possible way. Together we shape the future of our children.

WATER PLAY & MUD TABLES

Outdoor Water Tube Wallboard

The outdoor water tube wallboard guarantees fun! The hoses can be combined again and again from the front and back through the holes in the wall. With the robust hand pump, the water is easily pumped through the tubes. The children are fascinated by the course the water takes.

Extensive equipment and accessories. Thanks to the many connectors included in the set, the different pipes and the water wheel, the children can change the watercourse as often as they like. The 2 grey water collection containers are included in the delivery. In addition, 2 buckets, 2 scoops, 1 boat and 12 balls are included in the set free of charge, so that the water fun can start right away. The blue container (side) is not included.

- dimensions (LxWxH): 132 x 81 x 140 cm
- materials: pine, PP, PE, PVC, pressure impregnated and double-coated with a natural oil-wax glaze
- delivery is disassembled, by freight forwarder to the curb
- incl. assembly instructions for easy self-assembly
- 5-year manufacturer's guarantee

FIND OUT MORE

Mobile Outdoor Water Play Area

Discover the ultimate mobile outdoor water play area, specially designed for use in daycare/child care centre. This versatile and entertaining play aera offers hours of splash-tastic fun and educational experience during children's playtime. Made of high-quality pressure impregnated pinewood and additionally treated with wood oil wax, it is robust and durable to withstand the rigours of play.

The water play structure consists of three spacious tubs that provide plenty of space for splashing and playing in mud. Children will be thrilled to use the hand pump to move water into the tubes and watch it flow through the various connectors. An impressive water wheel adds to the excitement, as the flowing water powers its rotation.

The flexibility of this play area allows children to let their creativity run wild and experiment with different water games. Whether they want to float boats, build small reservoirs or simply enjoy the cool water – this play area offers countless ways to explore and imagine.

Mobility is another advantage of this water play area. Thanks to its durable castors with locking brakes, it provides effortless mobility, enabling versatile repositioning depending on the weather or activity. The sturdy powder-coated steel substructure ensures stability and guarantees that the system remains stable even during active play.

Children's safety is our top priority. That is why this water play area is compliant with EN 71 standards. You can therefore rest assured that it meets all safety requirements.

Playable from both sides

Another advantage of this play area is that it can be used from both sides. This fosters social interaction among children, as they can engage in fun water activities as a group.

Introduce fun and educational water playtime to your daycare/child care centre and enrich children's development with this mobile outdoor water play area. Beyond fun, it encourages creativity, develops motor skills and fosters social competence in children. Let them discover the world of water and inspire your little adventurers with this fantastic outdoor equipment!

- dimensions (LxWxH): 139 x 77 x 169 cm
- materials: pressure impregnated pinewood with double wood-oil-wax glaze for long durability; polycarbonate, powder-coated steel, aluminium, PVC
- 5-year manufacturer's guarantee

Mobile Sand and Water Table for Messy Play with Pointed Roof

The Sand and Water Table for Messy Play is made of high-quality materials to ensure a long service life and safety in daily use. The frame is made of galvanized and powder-coated steel, making it particularly stable and weatherproof. The side elements are made of hard-wearing HPL (High Pressure Laminate), which are ideally suited to withstand the challenges of children's play. The large sand and water tub made of hard-wearing polypropylene (PP) is ideal for messy play and creative design projects. Thanks to the four integrated castors, two of which have locking brakes, the table can easily be moved and safely positioned exactly as needed. The pointed roof is made of robust OXFORD polyester fabric and has a special PU coating that makes it waterproof. As a result, children are protected from all kinds of weather while playing.

- dimensions (LxWxH): 91 x 91 x 210 cm
- table height: 59 cm
- materials: galvanised, powder-coated steel frame, PE, roof made of OXFORD-PE

Mobile Mud Table with Sloping Roof

Developed for lively and creative use in daycare centres, the mobile mud table offers the ideal platform for unforgettable outdoor playtime fun. Thanks to well selected materials, this product combines strength, durability and functionality for everyday use. The table frame is made of galvanized, powder-coated steel, which is durable and weatherproof. The robust HPL (High Pressure Laminate) side panels provide additional protection and stability, while the high-quality polypropylene (PP) sand and water tub is easy to clean and withstands any messy play. A special highlight is the sloping roof made of sturdy OXFORD polyester fabric. Not only does it offer protection from the sun and rain, but thanks to its special PU coating, it also ensures that playing and learning continues also in unforeseen weather conditions. The mud table is equipped with two sturdy castors that allow moving the table flexibly around the outdoor area. The locking brakes guarantee a secure stand during play.

- dimensions (LxWxH): 86 x 86 x 140

Outdoor Water Play "Gutters"

Discover the "Gutters" Outdoor Water Play – the perfect addition to your garden or playground. This creative and interactive water play unit will delight children and adults alike and provide hours of outdoor fun.

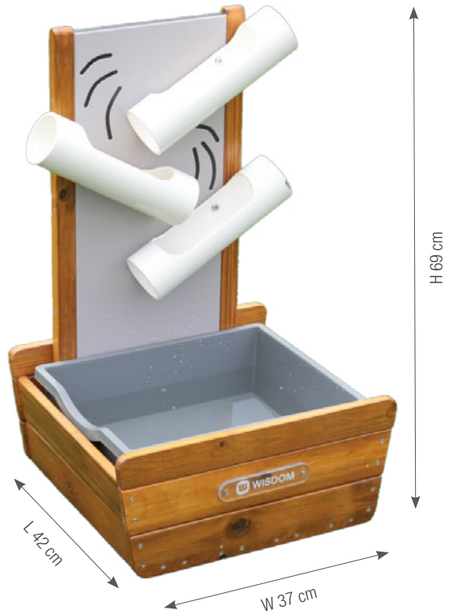

Made from high-quality pressure impregnated pinewood, this water play equipment combines durability with natural beauty. The double coating of wood oil/wax glaze protects the wood and reveals its naturally grain beautifully.

The robust PVC rain gutters playfully channel the water down, while the polypropylene (PP) material basin collects it at the bottom and makes it available to start the cycle all over again. The sturdy polyethylene (PE) back panel provides additional stability and durability.

Thanks to its compact dimensions of (LxWxH) 42 x 37 x 69 cm, the "Gutters" Outdoor Water Play fits easily into any corner of the garden where it will catch everyone's attention. With its well thought-out design, it not only offers lots of fun, but also blends harmoniously into any natural environment.

The "Gutters" Outdoor Water Play will offer many years of fun as we offer a 5-year guarantee on this product. Introduce dynamism and fun to your outdoor area with the "Gutters" Outdoor Water Play – where water flows into fun!

- dimensions (LxWxH): 42 x 37 x 69 cm
- materials: pressure impregnated pinewood treated with double wood oil wax glaze, PP, PVC, PE
- 5-year manufacturer's guarantee

HW1-S285-A

Outdoor Water Play "Raindrops"

The "Raindrops" Outdoor Water Play was specially developed for use in daycare centres and offers children a fascinating opportunity to explore the properties of water through play.

This robust water play unit is made of pressure impregnated pinewood, which has been treated twice with a natural wood oil/wax glaze to ensure a durable and weatherproof surface. The water pipes are made of hard-wearing PVC and ensure safe water drainage. The sturdy side panels are made of PE and the drip basin is made of PP guaranteeing maximum safety and durability.

The design of the "Raindrops" Outdoor Water Play is characterised by a multi-level pipe structure, which provides a unique visual and playful effect. The top pipe has the most openings, which means that a relatively large amount of water is quickly channelled down to the pipe below. The pipe in the middle has fewer openings and allows the water to drip more slowly into the lowermost pipe. The lowermost pipe has the least number of openings, which means that only a small amount of water drips into the basin below. This well-balanced system offers children the opportunity to discover the dynamics of water and rain and to observe the process with enthusiasm.

The "Raindrops" Outdoor Water Play equipment is not only a visual highlight on any playground, but also a durable, high-quality product. With our 5-year guarantee, you can trust this water play equipment will provide lasting fun and education for children.

Combine water fun and learning to your facility with the "Raindrops" outdoor water play equipment.

- dimensions (LxWxH): 47 x 43 x 72 cm
- materials: pressure impregnated pinewood treated with double wood oil/wax glaze, PP, PVC, PE
- designed for daycare centres
- 5-year manufacturer's guarantee

HW1-S283-A

Playing, Discovering & Learning Outdoors

Outdoor Water Play "Water Wheels"

Children in daycare centres will experience fascinating playtime fun with the "Water Wheels" Outdoor Water Play.

Made of pressure impregnated pinewood, combined with a natural double wood oil/wax glaze, this water play equipment is durable and weatherproof. The aesthetic wooden frame is paired with a robust back panel made of PE, while the removable drip basin is made of hard-wearing PP.

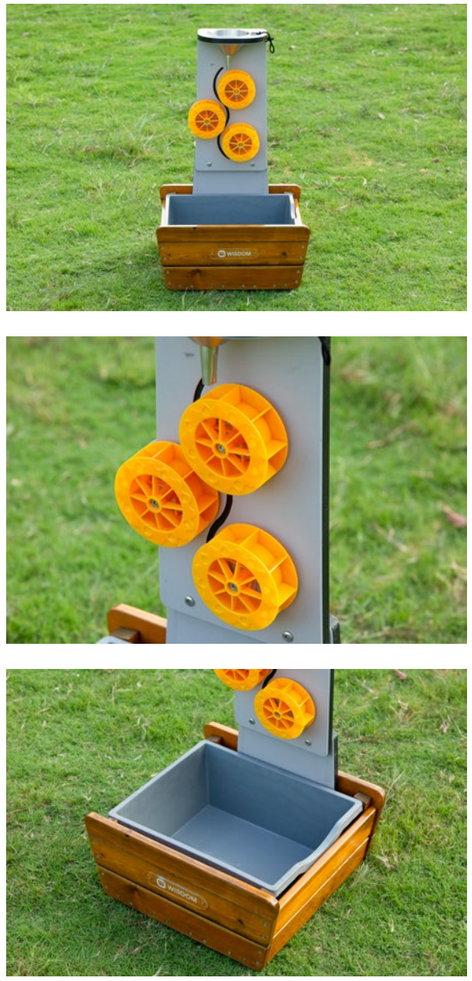

The central element consists of three colourful PVC water wheels, which playfully set cascades of water or sand in motion. The handy stainless steel funnel makes it easy to fill with water or sand and ensures smooth transport of the materials.

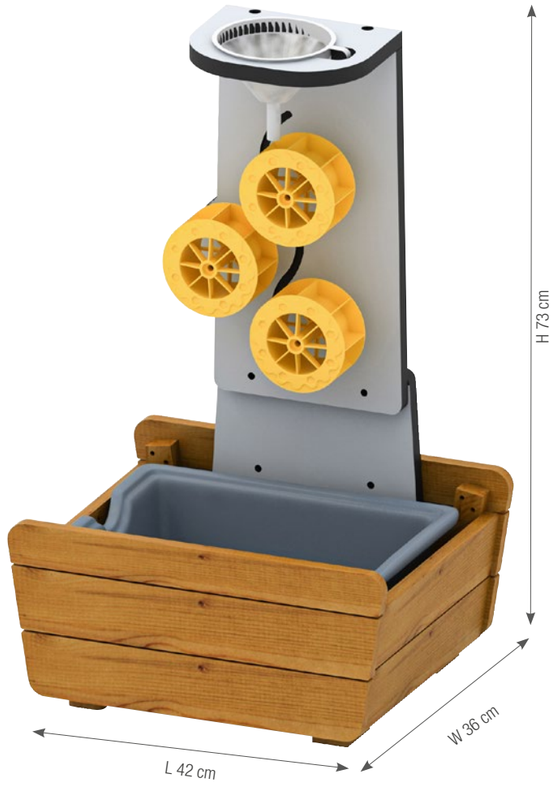

The dimensions of the "Water Wheels" Outdoor Water Play (LxWxH) 42 x 36 x 73 cm make it an ideal addition to the outdoor area of daycare centres, where it encourages children's thirst for discovery and at the same time trains their motor skills through play. The removable drip basin makes it easy to clean and maintain.

Let children rediscover the fascination of water and sand – with the "Water Wheels" Outdoor Water Play, which wonderfully combines fun and learning.

- dimensions (LxWxH): 42 x 36 x 73 cm
- materials: pressure impregnated pinewood treated with double wood oil/wax glaze, PP, PVC, PE, ABS

FOREST CABIN

Welcome to the enchanting world of the forest cabin – a perfect place for children to let their imagination run wild! The lovingly designed forest cabin is a paradise for adventurers and little explorers alike who want to enjoy their free time in nature. The forest cabin is the ideal play equipment for children:

1. Natural and harmonious design: Our forest cabin is made of high-quality wood and fits perfectly into any natural environment. With its authentic design, children can experience nature to the fullest and let their imagination run wild.

2. Sturdy and durable: The forest cabin was designed with children's playful adventures in mind. It is extremely sturdy and durable, ensuring years of uninterrupted fun.

3. Versatile playtime fun: Whether playing hide and seek, being secret agents, a magical fairy or a brave knight, the forest cabin offers children the perfect setting for endless adventures and role play. Children can unleash their creativity and use their imagination. They can make up their own stories, transform themselves into different characters and explore new worlds.

4. Fostering social interaction: The forest cabin offers enough space for several children to play together. This develops social skills such as teamwork and communication.

5. Safety first: The forest cabin was designed with safety in mind. All edges are rounded, and the structure is stable to prevent injuries. It is compliant with EN1176 (playground equipment safety).

6. Easy to assemble: The forest cabin is easy to assemble and can be placed both outdoors and indoors. This means that children can enjoy it all year round.

7. Timeless world of play: While much modern play equipment is often short-lived, the appeal of the forest cabin endures. It is a timeless piece of play equipment that will delight generations of children.

Create a magical playing environment where children can learn, discover, and let their creativity run wild.

- dimensions (LxWxH): 161 x 161 x 195 cm
- entrance area (WxH): 70 x 105 cm

OUTDOOR DRAWING BOARDS "FLOWERS"

2-YEAR GUARANTEE

cute animals

in 5 colours: yellow, blue, pink, red, orange

plastic (PVC), weatherproof (material is not magnetic)

Outdoor Drawing Boards "Flowers", set of 5

These large flower panels are ideal for outdoor use. They are weatherproof and can be left outside all year round. They also beautify walls and unused areas indoors, e.g. in the hallway or staircase area. With chalk or liquid chalk, children can let their imagination run free at any time and paint to their heart's content, play school and do their first writing exercises.

Whether the boards remind parents of important things as an info board or serve as a "menu" at parties, the possible uses are absolutely versatile.

The chalkboards are made of weatherproof plastic and have predrilled holes. The painting boards can be easily attached to fences with the included cable ties or to walls or doors with screws (included).

IMPORTANT NOTE: Due to the chalkboard's material, it is not recommended for use with pavement chalk. We recommend using blackboard chalk for best results.

- dimensions (HxW): 117 x 81 cm
- material thickness: 0.3 cm
- materials: plastic (PVC) weatherproof (material is not magnetic)
- delivery includes cable ties for easy attachment to fences as well as screws and dowels for easy wall mounting

Outdoor Plant Rack

HW1-S264-V01-A

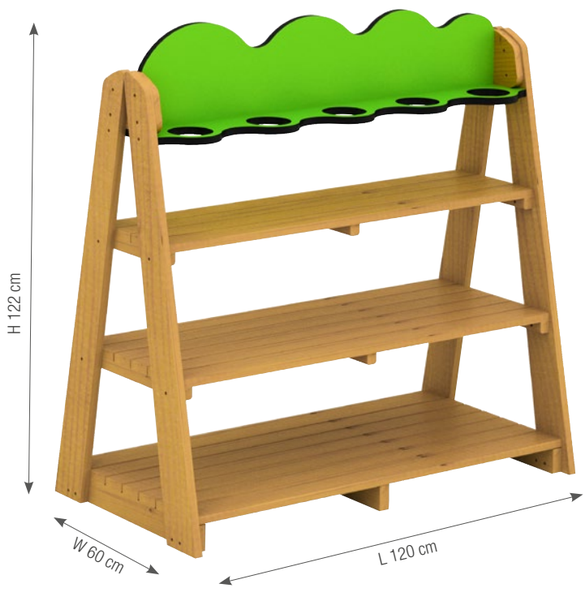

Discover our functional Outdoor Plant Rack specially developed for daycare centres, which blends in aesthetically into any outdoor area. Made from robust, pressure impregnated pinewood and finished with a natural double wood oil/wax glaze for additional protection, this rack is highly durable and weatherproof.

The Plant Rack holds three spacious shelves, which can be filled with beautiful plants or any other decorations. Particularly noteworthy are the 10 PE holders at the top level, which have been specifically designed for plant pots and make the presentation of plants attractive and safe for little explorers. As the plant pots are not included, you have the freedom to personalise your rack and design it according to your own preferences.

With its dimensions of (LxWxH) 120 x 60 x 122 cm, this Plant Rack fits into both small and spacious outdoor areas and offers sufficient space for a wide variety of plants. The PE headboard and PE brackets are easy to clean and contribute to the stability and safety of the entire structure.

This Plant Rack is more than just a piece of furniture – it is an invitation for children to discover the wonders of nature and develop a green thumb. Create an inspiring environment that encourages creativity and outdoor learning with this rack. Ideal for any outdoor area of a daycare centre that invites children to nurture and care for plants.

- dimensions (LxWxH): 120 x 60 x 122 cm
- materials: pressure impregnated pinewood treated with double wood oil/wax glaze, polyethylene
- 5-year manufacturer's guarantee

Planter for the Nursery

With this planter, children become little gardeners. Whether you want to create a small herb garden or plant lettuce and tomatoes – the planter offers a wide range of opportunities to teach children valuable knowledge about cultivation, care and harvesting. Because vegetables don't grow in the supermarket. The planter is made from solid pinewood with a natural wood oil finish for durability.

The WPC floor and the lining on the inside have been designed in such a way that waterlogging is prevented and small rodents don't stand a chance.

- dimensions (LxWxH): 150 x 50 x 40 cm
- material: pinewood with natural wood oil finish for durability
- ideal for daycare centres
- space-saving design
- 5-year manufacturer's guarantee

Playing, Discovering & Learning Outdoors

GREENHOUSE

Greenhouse

Discover our Greenhouse specially developed for use in daycare centres, which introduces young gardeners to the world of plant growth through play. This high-quality Greenhouse provides protection for plants, and is an ideal learning tool for children.

The Greenhouse is made of pressure impregnated pinewood, which is known for its durability and resistance. The natural charm of the wood is enhanced by a double treatment with a wood oil/wax glaze, which optimally protects the material and gives it an appealing, natural look. The sturdy corner connectors are made of galvanised, powder-coated steel, making the structure sturdy and safe.

The Greenhouse cover is made of PE, a material valued for its excellent properties in terms of light transmission and protection from external weather influences. A PVC root protection insert is included to ensure that your plants can thrive optimally. This prevents the roots from penetrating and thus ensures clean and structured growth.

To support the educational aspect, four practical pegboards are included, which children can use to label their plants and track their growth. This encourages curiosity and a sense of responsibility through play.

The compact design, measuring 100 x 50 x 90 cm, fits perfectly into any garden or outdoor area of a daycare centre and can offer sufficient space for a variety of gardening projects. Our Greenhouse is the perfect choice for educational establishments that want to teach their children about nature and gardening. Robust, safe and educational – an investment in the future of our kids.

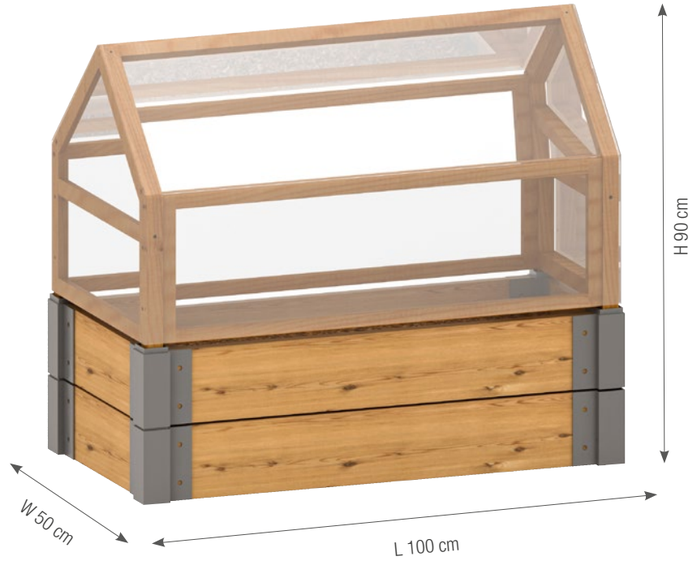

- dimensions (LxWxH): 100 x 50 x 90 cm
- materials: pressure impregnated pinewood treated with double wood oil/wax glaze, polyethylene
- 5-year manufacturer's guarantee

STORAGE

OUTDOOR SHELF

Our Outdoor Shelf is the perfect solution for keeping your daycare's outdoor area tidy and organised. With a height of 101 cm and three spacious compartments, each 20 cm high, the shelf offers enough space to store sand toys, toys and other essential materials for your children's outdoor play.

Thanks to its double-sided usability, several children can access the shelf at the same time and independently supply themselves with the materials they need. This promotes children's independence and social interaction as they learn to organise and share their play materials together.

The shelf is made of high-quality pressure impregnated pinewood and treated with a wood oil/wax impregnation. This gives it the best protection against the elements and makes it perfect for permanent outdoor use. The robust construction ensures a long life and offers a reliable storage option for the play materials of your day care centre.

Measuring 80 cm wide and 50 cm deep, the shelf is compact yet spacious enough to safely store all of your play essentials. It is a practical addition to any outdoor play area and helps to ensure that children enjoy their time outside to the fullest.

Our outdoor shelf combines functionality, durability, and aesthetics in one product, making it the ideal solution for enhancing your daycare centre's play area. Let children enjoy playing outdoors to the fullest without the burden of having to organise materials.

- dimensions (LxWxH): 81 x 50 x 101 cm
- shelf height: 20 cm
- material: pressure impregnated pinewood with double wood oil/wax glaze for long durability
- 5-year manufacturer's guarantee

Mobile Outdoor Wardrobe

The Mobile Outdoor Wardrobe is the perfect solution for daycare/ child care centres to optimally equip the little ones for their outdoor adventures. With its weatherproof awning and powder-coated triple hooks, it offers a practical and functional way to organise the children's wardrobe in an orderly fashion.

A special feature of this wardrobe is that it can be used from both sides, which makes accessing and organising clothes and equipment for up to 10 children incredibly easy. The wardrobe has generous storage areas on both sides for wellies and shoes, so that the children can store their shoes neatly before entering the interior.

With its robust plastic castors and a reliable locking brake, the coat rack can be moved effortlessly outdoors and positioned elsewhere if necessary. This allows you to optimally align the wardrobe depending on the children's activities. The high-quality material guarantees many years of use without compromising aesthetics.

- dimensions (LxWxH): 109 x 50 x 132 cm
- material: pressure impregnated pinewood with double wood oil/ wax glaze for long durability
- awning made of weatherproof fabric
- powder-coated triple hooks
- robust plastic castors with locking brake
- 5-year manufacturer's guarantee

HW1-S1A625-A

Mobile Outdoor Rubber Boot Cart

With our practical mobile outdoor rubber boot cart, storing and organising rubber boots in the nursery is child's play. This high-quality boot trolley can be used from both sides and has space for up to 30 pairs of boots, so you always have enough storage space for the little adventurers.

The rubber boot cart is equipped with a generous drip tray that ensures clean and tidy storage of the wet boots. Thanks to the robust plastic castors, which have a locking brake, the trolley can be moved effortlessly and safely and fixed in place when not in use.

The rubber boot cart is made of high-quality, pressure impregnated pinewood, which ensures a long life and resistance to weathering. The wood-oil/wax impregnation gives the trolley a natural look and additionally protects the wood from moisture and dirt.

This mobile outdoor rubber boot cart makes organizing and storing rubber boots in daycare/child care centres more efficient and easier than ever before. No more worrying about messy shoe collections – with our boot cart, you'll be able to always keep track of everything and ensure a clean and tidy environment for children.

OUTDOOR COAT RACK

Outdoor Coat Rack

HW1-S627-A

Our high quality Outdoor Coat Rack offers the perfect solution for a neat and orderly outdoor storage area for up to 6 children. With enough space for mud trousers, rain jackets and shoes, it allows for uncomplicated storage of clothes and accessories.

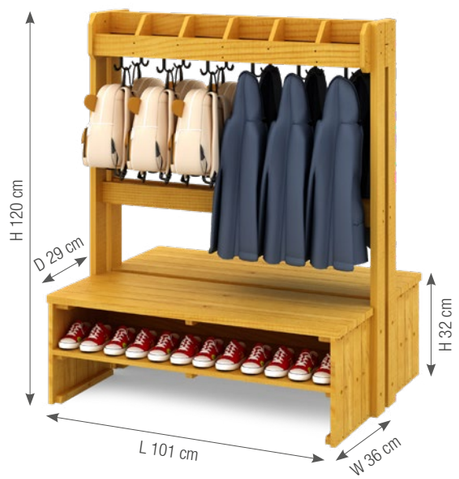

The coat rack features sturdy, powder-coated triple hooks that provide ample space for children's clothes. The hooks are ideal for hanging jackets, coats and much more. In addition, the coat rack offers storage compartments above the triple hooks, which are perfect for caps, hats and other accessories. This way, the children always have all their clothes and utensils within reach and can store them neatly. Shoe compartment under seat.

The bench height of the coat rack is a pleasant 32 cm, which allows the children to sit comfortably while they put on or take off their shoes. The robust pressure impregnated pinewood in combination with the wood oil-wax impregnation ensures high weather resistance and durability, even with heavy outdoor use.

- dimensions (LxWxH): 101 x 36 x 120 cm
- bench height: 32 cm
- bench depth: 29 cm
- material: pressure impregnated pinewood with double wood oil/ wax glaze for long durability
- 5-year manufacturer's guarantee

Outdoor Cabinet with opaque doors

Our outdoor cabinet with opaque doors is the ideal solution for use in the outdoor area of a daycare centre. With its practical features and high-quality materials, this cabinet offers a reliable and appealing way to safely store toys, sand toys and other items while allowing children independent access.

The shelf cabinet has a total of three spacious compartments, each with a height of 20 cm, which offer enough space for a variety of materials. Whether sand toys, playthings or other things to be used outdoors, they will find their orderly place here.

The dimensions of the cupboard are 81 cm long, 50 cm wide and 101 cm high, making it compact yet spacious enough for outdoor use. The opaque doors protect the contents from prying eyes and allow children to independently stock up on the materials they need, promoting independence and organisation.

With our high quality outdoor shelving cabinet, you can organise the outdoor area of your daycare even better and create a tidy and inviting environment. Not only is this cabinet functional and durable, but it also blends harmoniously into the overall look and is a practical piece of furniture that meets the needs of children.

- dimensions (LxWxH): 81 x 50 x 101 cm
- shelf height: 20 cm

OUTDOOR CABINET

Outdoor Cabinet with transparent doors

The outdoor cabinet with transparent doors is a practical and robust piece of furniture that has been specially designed for use in daycare centre outdoor areas. With its numerous advantages, it enables optimal organization and storage of children's outdoor items, including toys and sand toys.

The cabinet has a total of three spacious compartments, each 20 cm high, which offer enough space to store toys and various utensils in an orderly manner and within easy reach. The transparent doors give children a clear overview of the contents of the compartments, which helps them to independently stock up on the materials they need and playfully promotes their independence.

A special highlight of this cabinet is the use of shatterproof polycarbonate for the panes. This material not only ensures a clear view of the contents, but also guarantees a high level of safety as it is insensitive to impacts and breakages.

The dimensions of the outdoor cabinet are 81 cm long, 50 cm wide and 101 cm high, which ensure a compact yet spacious structure. Made of pressure impregnated pinewood with a high-quality wood oil/wax impregnation, the cabinet is ideally suited for outdoor use. This special treatment of the wood protects it from the elements and gives it a long life, so it can easily withstand the daily challenges of outdoor use.

plenty of storage space thanks to 3 compartments

Combination of two cabinets

The outdoor shelf cabinet with transparent doors is not only functional, but also aesthetically pleasing. With its natural look, it blends harmoniously into its surroundings and helps to create a friendly and inviting atmosphere in any daycare centre.

Organisation, safety and child-friendly self-service are the focus of this cabinet. It is an excellent addition to daycare centres or nurseries that want to provide a pleasant and educational environment for their little charges. Rely on the quality and functionality of this outdoor shelving cabinet to make outdoor play and learning even more enjoyable and efficient.

- dimensions (LxWxH): 81 x 50 x 101 cm
- shelf height: 20 cm
- material: pressure impregnated pinewood with double wood oil/ wax glaze for long durability

OXYGYM – FIRE ENGINE

5-YEAR GUARANTEE

OXYGYM – Fire Engine

The outdoor climbing frame OXYGYM Fire Engine is the perfect play equipment for daycare centres that want to promote the development of children's motor skills and coordination. With dimensions of 200 x 150 x 75 cm, it offers enough space for several children to climb and play on at the same time.

The fire engine look of the equipment makes it particularly appealing to little firefighters who like to go on their own rescue missions. It allows children to playfully train their strength and endurance while using their imagination and creativity. The OXYGYM Fire engine is, therefore, a great addition to any daycare centre or playground offering children exciting outdoor adventures.

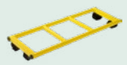

- dimensions (LxWxH): 200 x 150 x 75 cm

Train Set

This train set is a highlight on any playground. The locomitve can be installed as an individual piece and expanded with other pieces. Tailor-made to your specific needs, our play and climbing structures help develop children's motor skills while offering them an exceptional play environment.

When selecting the materials used, particular emphasis was placed on durability. We use tali wood for construction.

Tali is a type of wood that can successfully withstand heavy loads and extreme weather conditions. Tali is used in the construction of heavily used floors, parts of bridges, quays and pontoons, as well as trusses, posts, fences, pavilions, thresholds and garden benches, as well as train carriage floors.

- materials: Tali wood, HDPE, stainless steel, pressure-impregnated pinewood with natural wood oil finish
- for children from 3 years and up
- 15-year manufacturer's guarantee
- in compliance EN 1176
- Foundation required

"ELEPHANT" PLAY STRUCTURE

"Elephant" Play Structure

The "Elephant" Play Structure promises hours of play, learning, and discovery for children aged 1 to 6 years. With its generous dimensions of 3.6 m long, 1.5 m wide and 1.8 m high, this robust playground structure provides a safe and exciting environment for up to 8 little riders at a time.

The well thought-out design of this playground structure takes into account both the needs of young adventurers and the safety that parents and carers value. With a critical fall height of only 0.6 m and a surface area of 22 m², the "Elephant" Play Structure fits perfectly into a wide variety of environments, be it playgrounds or daycare/child care centres.

The "Elephant" Play Structure offers a variety of exciting elements that promote children's development. The integrated slide provides unforgettable fun and at the same time promotes motor skills. The height measuring board offers a fun way to keep track of children's growth.

The busy board stimulates imagination and helps develop children's fine motor skills. This is where they can solve tricky tasks and strengthen their cognitive abilities. The spacious play area under the structure encourages children to engage in games of hide-and-seek and imaginative role-playing, thereby fostering their social skills.

With an area of 16.1 m² in the impact zone, the system offers enough space to safely cushion any falls. Parents can sit back and relax while their little explorers conquer the world of play opportunities.

TÜV In compliance with EN1176

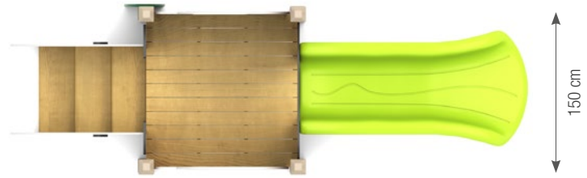

The "Elephant" Play Structure offers a lot of fun and is also an investment in children's development. Let your children unleash their imagination, develop their skills and experience unforgettable experiences – all in a safe and appealing environment they will enjoy for a long time.

- dimensions (LxWxH): 3.6 x 1.5 x 1.8 m
- materials: PE, LLDPE, powder-coated steel, pressure impregnated pinewood with natural wood/oil glaze, tali and robinia wood

"Locomotive & Wagon" Crawl Tunnel Set

The "Locomotive & Wagon" Crawl Tunnel set is specially designed for use in daycare/child care centres and is ideal for enhancing the outdoor area. The components of the set are made of durable materials such as LLDPE and PE, which are sturdy and weather-proof.

The Locomotive measures 136 cm in length, 107 cm in width, and 142 cm in height. The accompanying wagon is 135 cm long, also 107 cm wide, and 100 cm high. The generously sized tunnels provide ample space for active play, ensuring both safety and easy accessibility for children.

The set comes with a 15-year guarantee, which emphasises the quality and durability of the materials and manufacturing. It is an excellent choice for developing children's motor skills and imagination through active play.

- dimensions combined (LxWxH): 271 x 107 x 142 cm
- materials: LLDPE, PE
- designed for daycare/child care centres
- 15-year manufacturer's guarantee

"Caterpillar" Crawl Tunnel

The "Caterpillar" Crawl Tunnel is a versatile and colourful play equipment unit that has been specially developed for use in day-care/child care centres. This high-quality product gives children the opportunity to improve their motor skills through crawling and exploring.

Made from robust LLDPE and PE, the "Caterpillar" Crawl Tunnel offers durability and safety in everyday play. The sturdy materials are ideal for intensive use in heavily frequented facilities. We also offer a 15-year guarantee, so you can be sure that you are investing in a durable and reliable product.

The "Caterpillar" Crawl Tunnel consists of three interconnected tunnels that provide an exciting journey of exploration for children. The colourful design immediately attracts children's attention and ensures hours of playtime fun.

Measuring 268 cm in length, 113 cm in width, and 135 cm in height, the "caterpillar" offers enough space for several children to satisfy their curiosity and thirst for adventure at the same time. This fun, creative tunnel boosts kids' physical activity and social skills by getting them moving and playing together.

Bring vibrant colours and boundless fun to your daycare/child care centre with the "Caterpillar" Crawl Tunnel. A must-have for any centre that values a high-quality and safe play environment!

- dimensions (LxWxH): 268 x 113 x 135 cm
- materials: LLDPE, PE
- designed for daycare/child care centres

PRODUCT VIDEO

FIND OUT MORE

The "Ole" Chair series is ideal for daycare centres and offers exactly what children and carers need: stability, comfort and flexibility. The well thought-out design of the chairs combines both an appealing look and functionality to ensure that children feel completely at ease.

Each chair in the "Ole"" series is made from high-quality poplar multiplex with an attractive maple finish, while the backrest and seat are coated with HPL. The other parts of the chair are coated with melamine resin. As a result, the chairs are not only lightweight, but also remain stable and durable, despite heavy use.

Each chair has a practical handle in the backrest for easy transport. In addition, all chairs are fitted with plastic glides on the legs to prevent scratches on floors and increase mobility.

The "Ole" Chair Series perfectly combines form and functionality to meet the requirements of modern, child-friendly interiors.

Bookshelf "Tree"

The "Tree" bookshelf has been specially designed for use in educational institutions such as daycare/child care centres and libraries. Made of high-quality poplar multiplex with a durable melamine coating in a warm maple look, this shelf is not only extremely sturdy, but also easy to clean and easy to maintain. It is designed to meet the demands of public use and provide years of reliable service.

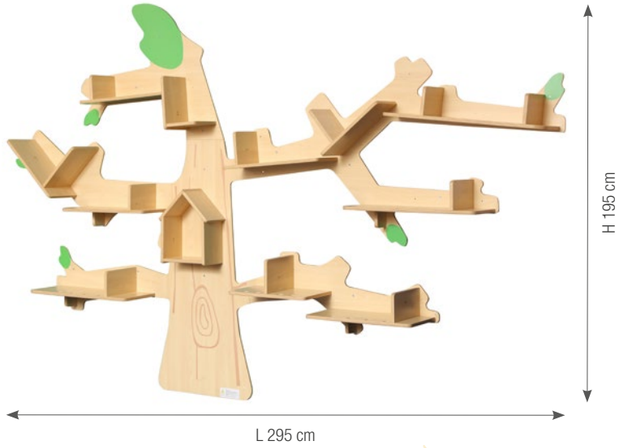

With a generous width of 295 cm and a height of 195 cm, our "Tree" bookshelf offers enough space for an impressive collection of books, magazines, games and other educational materials. It has several open shelving levels that allow easy access and a clear overview of the contents. This shelf is the ideal solution for creating an appealing reading environment and teaching children the joy of reading.

In addition to its impressive functionality, the "Tree" bookshelf is also a real highlight for your wall design. Its unique tree design gives your room a charming and natural atmosphere that appeals to both children and adults. The warm maple finish blends seamlessly into any room design and adds a cosy and inviting touch to your space.

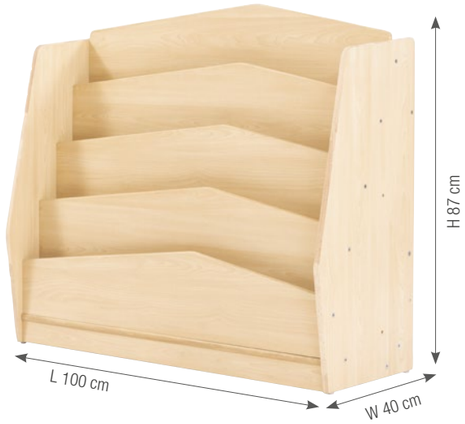

- dimensions (WxH): 295 x 195 cm

Coat rack

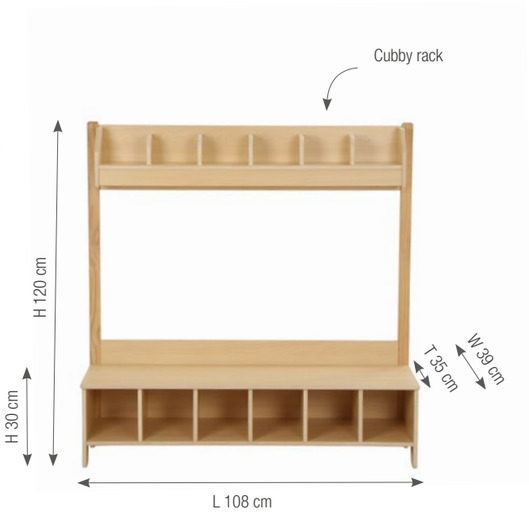

The daycare/child care centre coat rack is the ideal solution for creating order and structure in the daily morning and afternoon chaos. With generous space for up to 6 children, this coat rack provides the perfect way to store jackets, shoes and backpacks in an orderly fashion.
The coat rack has a 3-arm coat hook system made of powder-coated steel, which provides sufficient space for jackets and coats. The dimensions of the shoe compartment (18 x 33 x 19 cm) and the storage compartment (18 x 18 x 13 cm) offer sufficient storage space for shoes and small personal items. The generous distance of 68 cm between the seat and the storage compartment allows children to sit down comfortably and put on their shoes. This coat rack is self-standing and can also be attached to the wall for extra stability if needed. In this way, it adapts perfectly to the spatial conditions of your daycare/child care centre.

- dimensions (LxWxH): 108 x 39 x 120 cm
- dimensions shoe compartment (LxWxH): 18 x 19 x 33 cm
- dimensions storage compartment (LxWxH): 18 x 13 x 18 cm
- distance between seat and storage compartment: 68 cm
- bench height: 30 cm
- bench depth: 35 cm
- materials: poplar multiplex with melamine coating in maple look, solid pinewood, powder-coated steel
- edges treated against moisture and dirt
- 10-year manufacturer's guarantee

SHOE RACK

Shoe rack for 15 pairs of shoes

Our high-quality shoe rack for day care/child care centres offers the ideal solution to store the shoes of your little ones neatly and space-saving. Made of robust poplar multiplex with a noble melamine coating in maple look, the shoe convinces not only with its appealing look, but also with its durability and stability.

The shoe rack offers space for a total of 15 pairs of shoes, which can be stored in 15 separate shoe compartments. Each compartment measures L 19 x H 16.5 x D 33 cm and offers enough space for the children's small shoes. Thanks to the clear subdivision, the children keep track of their own shoes and learn to keep order at the same time. Particularly noteworthy is the easy handling and quick self-assembly of the shelf. Thanks to clear assembly instructions, the shelf is quickly ready for use and can be put to use by the children immediately.

This shoe rack for daycare/child care centre is not only functional, but also designed to be child-safe. The rounded edges and careful workmanship guarantee safe use for the little ones.

- dimensions (LxWxH): 64 x 35 x 100 cm
- shoe compartment (LxWxH): 19 x 33 x 16.5 cm
- material: poplar multiplex with melamine coating in maple look
- 10-year manufacturer's guarantee

Shoe rack for 10 pairs of shoes

The shoe rack for 10 children is the ideal solution to ensure order and clarity in any daycare/child care centre or preschool room. With its well thought-out dimensions of L 110 x W 30 x H 40 cm, the shelf offers enough space to neatly store the shoes of up to ten children.

The children's well-being is always a priority, so the edges of the shoe rack are carefully treated and rounded to prevent injuries. The safety and durability of the shelf are thus guaranteed.

The self-assembly of the shoe rack is very easy, so that it is quickly ready for use. The shelf comes with easy-to-understand assembly instructions, which make the assembly an uncomplicated task. Within a very short time, you can assemble the shelf and thus provide the children with an organised and tidy environment.

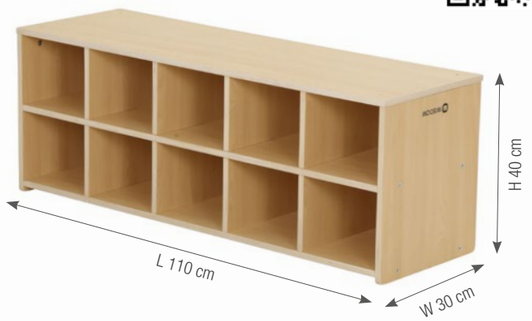

The daycare/child care centre shoe rack for 10 children is not only functional and practical, but also a beautiful piece of furniture that enhances the nursery room. It allows the children to take responsibility for their own things at an early age and thus promotes their independence.

- dimensions (LxWxH): 110 x 30 x 40 cm
- shoe compartment (LxWxH): 20 x 28 x 17 cm
- material: poplar multiplex with melamine coating in maple look
- 10-year manufacturer's guarantee

MOBILE ART CENTRE

Mobile Art Centre

This innovative Mobile Art Centre with Easel is the perfect solution for creative activities in daycare/childcare centres. The high-quality easel is specially designed for use in educational establishments and is both functional and child-friendly.

With its four smooth-running castors, the easel can easily be moved to the desired location. Two of the castors are fitted with locking brakes to ensure a safe and stable stand.

The double-sided design allows up to four children to give free rein to their creativity at the same time. This makes both drawing and colouring a social experience full of fun and learning opportunities.

Although the easel is supplied without storage boxes, the generous storage compartments offer plenty of space for paint, paintbrushes and other accessories. This keeps the painting area tidy at all times.

- dimensions (LxWxH): 80 x 39 x 120 cm
- material: poplar multiplex with melamine coating in maple look, castors made of powder-coated steel and rubber wheels
- 10-year manufacturer's guarantee
